

Directs a flow of pure, refreshing air, humidified for better sleep

The connected Pure Multi 700 3-in1 offers advanced filtration, hygienic humidification and cool air. Pure2Me airflow technology enhances the pleasant air purification experience, while the humidification system optimises humidity for health and comfort.

Product Benefits & Features
Pure2Me system directs flow of refreshing, filtered air

A high-performance purifier with the Pure2Me innovative airflow system. Its adjustable hood together with the oscillating louvers with 3 different options, deliver a flow of purified, refreshing air where you need it.

Advanced, 5-stage filtration with HEPA

A high-performance purifier with Pure2Me innovative airflow system. Its adjustable hood function and oscillating louvers with 3 different options, deliver a flow of purified, refreshing air where you need it.

*Based on internal tests Compared to when the hood is down

*Based on internal tests Compared to when the hood is down

Humidification system for better sleep and healthier skin.

Advanced humidification system monitors moisture in the air and links it to room temperature. This maintains a comfortable relative humidity level in winter for an ideal sleeping climate without compromising your family's health.

Enjoy comfortable air all year-round

Pure Multi 700 directs refreshing, purified air towards you on warm summer days with its high-performance fan function. You can also enjoy purified and humidified air in the winter.

*Based on internal tests in a 10m2 room using the highest fan speed, measured accordingly to ANSI-AHAM AC-1-2020 standard. For a CADR of 350.

Effectively captures and neutralises viruses and bacteria*

Neutralizes 99.99% of captured bacteria and filters 99% of airborne viruses*, keeping you and your family healthier.

- Light Sensor
- TVOC sensor
- Temperature sensor
- Humidity sensor
- Filter indicator
- Wi-Fi connection

*Tested on Escherichia coli, Staphylococcus aureus, Klebsiella pneumoniae, and Serratia marcescens to GB 21551.2-2010 Appendix B standards in 2021 and Influenza A virus H1N1: A/PR/8/34 (ATCC VR – 1469) Host cell: MDCK to ISO 18184: 2019 €

Product Specification	
Main colour	Dark Grey
Fan Speed	5
Technology	5 stages filtration: Pre-filter & Antibacterial layer & Pre-charged True HEPA13 filter & Active carbon and Ionization
MaxAreaServedB	73
Connectivity	Yes
Cord length, m	2
MaxAreaServed	30
AirCleaner_NoisePressureRange	20/34/43/47/51
AirCleaner_NoiseMinMax	20 - 51
CADRSmoke	350
Dimensions HxWxD in mm	646x410x310
FilterMain	Pre-charged True HEPA13
ElectronicDisplay	No
Handle material	Leather imitation
Net weight, kg	12.1
Volt, V	220-240
Sensors	Humidity, Light, PM 1, PM 10, PM 2.5, RFID, Temperature, TVOC
Product Number Code	950 011 643
Bar code	7332543985319
