

#### Optimised washing with load-sensing technology

The 600 SensiCare Washing Machine detects load size, adjusting time, water and energy for each individual load, from one kilo to a full load.

### Product Benefits & Features

#### SensiCare - save up to 30% of time, water and energy with load-sensing technology\*

SensiCare is a load-sensing technology that detects load size and adjusts the programme in order to save up to 30% of time, water and energy per load.\* This ensures precise and tailored washing for every garment.

\*Based on internal test of time, water and energy consumption of a 1kg load compared to max load in Cotton cycle 30°C using SensiCare which adjusts the programme based on load size.

#### Reduce washing time with Time Manager®

Don't wash longer than you need to. Wash your clothes with the adjustable 4-step Time Manager® feature and finish washing cycles in less time.

#### Steam Hygiene Programme removes 99,99% of bacteria and viruses\*

The Steam Hygiene Programme, certified by Swisstest, combines a wash cycle and steam to remove more than 99,99% of bacteria and viruses\* above 60°C. Pollen and allergens are also reduced for hygienically clean clothes after every wash.

\* Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swisstest Testmaterialien AG in 2021 (Test Report No. 202120117)

#### Rapid washing, for quick results

1. The Rapid programme lets you quick-wash your clothes for light cleaning. Take care of 3kg of laundry in just 20 minutes.

#### Inverter Motor+ is energy efficient and durable

The Inverter Motor+ is more energy efficient than standard Inverter motors thanks to the permanent magnet motor technology.
