

Gently dries without excess heat

The GentleCare Heat Pump Dryer dries gently, preventing garments from being exposed to excess heat and helping them look new longer. No extra time needed to dry them, even at the lower, gentler temperature.

Product Benefits & Features
Quick help: Gently dry up to 4 kg in 75 minutes*

Whenever you need dry clothes fast, use the powerful, QuickCare programme. It gently and consistently dries up to 4 kg of your favourite clothes in 75 minutes.* Optimised for lighter and thinner fabrics.

No sorting needed. Mixed loads each time evenly dried with MixCare

MixCare provides powerful yet gentle drying for mixed loads of cottons and synthetics, ensuring clothes are evenly dried with no sorting needed.

*Based on internal test on 4kg load of synthetic fabrics with initial moisture content of 40%, according to IEC 60456 standard. Drying time may vary depending on fabric type.

Sensors keep clothes from overdrying, so they look new longer

Keep clothes looking new longer while saving energy and time. DryAssist sensors measure the temperature and humidity of each load and adjust drying to prevent garments from over-drying and under-drying.

Even drying results for XL capacity loads with family sized Bedlinen XL

The family Bedlinen XL programme provides even drying results for XL loads, including bedlinen sets, without needing to re-start your dryer.

EasyClean Filter – for an energy-efficient machine

The EasyClean Filter is easy to clean and keeps your machine running at its best, helping to keep energy efficiency.

- Heat pump technology achieves unprecedented energy efficiency
- Delay start option
- Sensor dryer: the dryer senses when the clothes are dried to the level specified
- Additional time controlled drying programs
- Program card languages: Danish, Finnish, Norwegian, Swedish
- Optional accessories: Direct drain hose, Stacking kit
- Accessories included: Condenser Slots Brush
