

## Product information concerning the "COMMISSION DELEGATED REGULATION (EU) No 66/2014"

|                                                                                                                                                          |                   |                   |                   |          |          |          |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|-------------------|-------------------|----------|----------|----------|
| Trade mark: Siemens                                                                                                                                      |                   |                   |                   |          |          |          |
| Model Identifier: EX851HEC1E                                                                                                                             |                   |                   |                   |          |          |          |
| Type of hob: Electric                                                                                                                                    |                   |                   |                   |          |          |          |
| Number of cooking zones and cooking areas: 3                                                                                                             |                   |                   |                   |          |          |          |
| Energy consumption for the hob: 178.3 Wh/kg Wh/kg                                                                                                        |                   |                   |                   |          |          |          |
|                                                                         | <b>A</b>          | <b>B</b>          | <b>C</b>          | <b>D</b> | <b>E</b> | <b>F</b> |
| Heating technology                                                                                                                                       | Induction heating | Induction heating | Induction heating |          |          |          |
| Dimension:<br>For circular cooking zones or area:<br>diameter of useful surface area per<br>electric heated cooking zone, rounded<br>to the nearest 5 mm | 40,0 X<br>23,0    | 28,0              | 14,5              |          |          |          |
| Energy consumption per cooking zone<br>or area calculated per kg                                                                                         | 185.0             | 175.0             | 175.0             |          |          |          |
| Information according EN 60350-2                                                                                                                         |                   |                   |                   |          |          |          |
