

Powerful 4-in-1 cooling, amongst the quietest in its class¹

Stay cool with the 700 Multifunctional Portable Air Conditioner. An all-in-one solution for cooling, dehumidifier, fan and purifier, powered by new inverter technology for better performance, and ultra-quiet comfort.

*Internal test of noise pressure measured on the lowest fan speed at 1m in front of product based on GB7725 standard. Comparison with multifunctional air conditioner models from the top 30 portable air conditioner brands in Europe, within a price range of EUR 400-900.

Product Benefits & Features
Precise temperature control with inverter technology

New inverter technology delivers cooling with minimal temperature fluctuation. It runs ultra-quiet, efficiently reduces energy use*, and ensures ultimate comfort, day or night.

Smart cooling, smarter energy use

Save energy with smart Mode that adjusts cooling to your environment, and can cut energy use by up to 40%* with new inverter technology. The product has A+ energy rating** and use a natural R290 refrigerant.

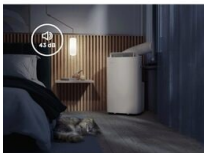

*Based on internal test comparing energy consumption of air conditioner with inverter motor with Electrolux 600 Portable air conditioner with fixed motor.

*Based on internal test of energy consumption when using smart mode compared to Electrolux 600 Portable Air Conditioner with fixed motor at high fan speed mode. Initial condition 30°C and 45% relative humidity.

**Based on applicable EU energy labelling regulations for air conditioners.

Whisper-quiet cooling. All day, all night

Enjoy comfort cooling with a low sound level of just 43 dB(A)¹. The air conditioner is quiet enough for restful sleep, easy conversation, or peaceful moments at home.

4-in-1 comfort for fresh and healthier air

Delivers cooling, fan, dehumidifier and purifier. With filter, the conditioner features HEPA filtration capable of filtering up to 97.7% of airborne pollutants as small as 0.3 microns, capturing up to 99.99% of bacteria and deactivating up to 99.98% of viruses while removing up

¹Based on internal test in accordance with standard GB7725, measuring the noise pressure on the lowest fan speed at 1m in front of the product.

*Bacteria capture is based on external test on Escherichia coli, Staphylococcus aureus, Klebsiella pneumoniae, and Serratia marcescens in accordance with GB 21551.2-2010 Appendix B standard. Virus deactivation is based on external test on Influenza A virus A/PR8/34 H1N1 in accordance with ISO

Smart design, seamless connectivity

The new slim design with vertical hose saves up to 53% space¹ in your home. Easy-glide wheels make it simple to move smoothly between rooms. It's made with 28%² recycled plastic from all plastic used and connects via the app for full control, wherever you are.

- Operation functions: Auto, Cool, Dry, Fan
- De-humidifying function for a fresher indoor climate
- Noise level: Normal, >= 64 dB(A)

¹In comparison with Electrolux 600 Portable air conditioner when placing the hose horizontally straight ²The air conditioner is made with 8% recycled material of the total product weight excluding packaging, composed of recycled plastic.

Product Specification

Main colour	White	Connectivity	Yes
Display unit	LED Display	Remote Control	No
SecGenELDCool	A+	Remote control features	Display On/Off, Fan Speed, On/Off Function, Swing On/Off, Timer On/Off
Application area, m2	41-49	Cooling Capacity (rated), kW	3.4
Refrigerant type	R290	Cooling Input (rated), kW	1400
Indoor air flow range, m3/h	430/360/300	Volt, V	220-240
Working temp heating mode, °C	N/A	Product Number Code	950 011 709
